AYESHA SIDDIKA S

+91 8431964771| ayeshasuhanasiddika@gmail.com | Bengaluru | ayesha-siddika-717339215

PROFESSIONAL SUMMARY

Tech enthusiast with hands-on experience in Python, Java, and web development, with exposure to AI tools and automation. Familiar with Linux, basic networking, and system troubleshooting. Strong problem-solving mindset with interest in IT infrastructure, automation, and support operations.

EDUCATION

Master of Computer Applications 2023 - 2025
Davangere University | Davanagere

Bachelor of Computer Applications 2020 - 2023
Davangere University - Bits Hi-Tech College, Chitradurga

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript
Backend: Python, Java
Frameworks: Django, Flask
Databases: MySQL, MongoDB
Cloud & DevOps: AWS(EC2, S3, Lambda, RDS), Docker, Kubernetes
Tools: Git/GitHub, Linux, ChatGPT, VS Code
Concepts: OOP, REST APIs, Troubleshooting, Networking Basics, Operating Systems, System Monitoring, Machine Learning

WORK EXPERIENCE

Software Developer Intern (Domain: Python) | Techciti Software Consulting Private Limited | Bangalore | JUNE 2025-SEP 2025

- Developed software systems using Python and object-oriented programming concepts to ensure reliable and maintainable performance. Implemented RESTful APIs using Flask and Django and integrated MySQL databases for efficient data handling.
- Built and tested backend services, managed dependencies using pip and virtual environments, and collaborated with teams using Git in Agile development environments.

PROJECTS

Admission Enquiry and Chatbot OCT 2024 - NOV 2024

- Developed an Online Admission Enquiry System using HTML, PHP, JavaScript, Python and MySQL to efficiently manage and respond to student queries. Integrated a rule-based chatbot to provide instant automated responses and improve user engagement.

Credit Card Fraud Detection System using ML JULY2025 - SEP 2025

- Designed and implemented a fraud detection system using Machine Learning and Deep Learning models like Random Forest, SVM, and LSTM. Performed data preprocessing, feature engineering, and model evaluation to enhance detection accuracy. Integrated a web interface for real-time transaction monitoring.

E-commerce shopping website MAY 2023 - JUNE 2023

- Developed a full-stack e-commerce platform using MERN stack with product listing, cart, and JWT-based authentication. Built REST APIs and responsive UI to ensure smooth user interaction and efficient data management.

CERTIFICATIONS

- **Python Programming Mastery -** Udemy
- **Complete MySQL Bootcamp** - Udemy
- **Oracle Cloud Infrastructure DevOps Professional** - Oracle University (Oct 2025 - Present)

INTERPERSONAL SKILLS

Strong communication and teamwork abilities with effective collaboration in diverse environments. Problem-solving mindset and adaptability to tackle challenges efficiently while maintaining code quality. Organized, proactive, and committed to continuous learning.
